Documents by subject areas

# Docs by subject areas

Menunjukkan perkembangan jumlah docs per subject areas tahun 1996-2020

Ada yang berkembang sejak lama (seperti engineering, computer science)

Ada yang belakangan (seperti earth and planetary sciences, energy, physics and astronomy)

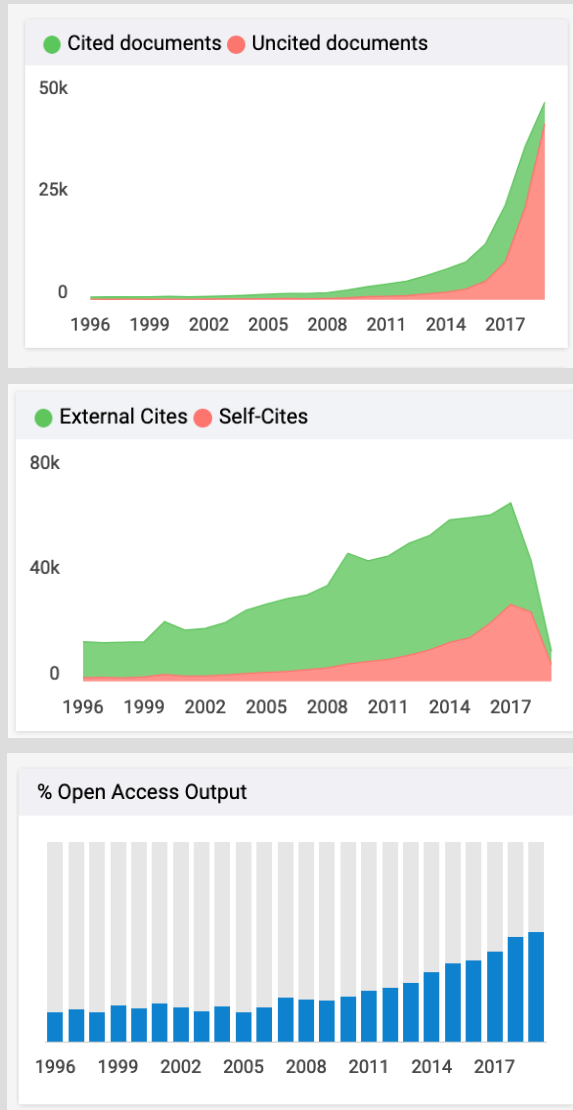

Banyak juga yang stagnan (seperti matematika, arts and humanities, agricultural biological sciences)

# Citations

Jumlah totalnya mengalami peningkatan yang ditandai dengan “tekuk lereng”/ *slope break* (istilah geomorfologi) pada tahun 2008 (1294), 2012 (3288), 2015 (6106), 2016 (8446).

Jumlah external cites dan selfcites meningkat secara proporsional dengan *spike* terjadi di tahun 2000, 2009 dan 2014. Penyebab?

Peningkatan jumlah sitasi (sepertinya) berhubungan dengan peningkatan jumlah dokumen berjenis OA.

# Proporsi luaran

Pada tahun 2008 = 0,07% dunia dan 0,28% asiatic

Pada tahun 2019 = 1,36% dunia dan 3,54% asiatic

# % kolaborasi internasional

Menunjukkan % dokumen yang ditulis bersama dengan penulis dari negara lain.

Menurun. Penyebab?

Sekarang kita bandingkan dengan kondisi  
pada beberapa subject area

Agricultural and biological sciences

Energy

**Documents by subject areas**

The chart displays the distribution of documents across 30 subject areas from 1996 to 2018. The x-axis represents the year, and the y-axis lists the subject areas. The 'Energy' subject area shows a significant and sustained presence, highlighted by a blue segment in the bars. Other subject areas show varying degrees of growth and activity over time, with some showing a sharp increase in the later years of the period.

Subject Area	Approximate Document Count (1996-2018)
Agricultural and Biological Sciences	Low to Moderate
Arts and Humanities	Low
Biochemistry, Genetics and Molecular Biology	Low to Moderate
Business, Management and Accounting	Low
Chemical Engineering	Low
Chemistry	Low to Moderate
Computer Science	Low to Moderate
Decision Sciences	Low
Dentistry	Low
Earth and Planetary Sciences	Low
Economics, Econometrics and Finance	Low
Energy	High (Sustained)
Engineering	Low to Moderate
Environmental Science	Low to Moderate
Health Professions	Low
Immunology and Microbiology	Low
Materials Science	Low
Mathematics	Low
Medicine	Low to Moderate
Multidisciplinary	Low
Neuroscience	Low
Nursing	Low
Pharmacology, Toxicology and Pharmaceuticals	Low
Physics and Astronomy	Low
Psychology	Low
Social Sciences	Low
Veterinary	Low
